- Nutrients are subject to natural variation of the raw materials and their production process.

### Our feed recommendation

- The feed is suitable for supplementing a ration based on roughage (grasshay, alfalfa, straw, leaves etc.)
- Always provide free access to fresh drinking water.
- Benchmark: 0.4% - 0.8% of body weight per day for rhinos and 0.5-1.5% of the body weight for tapirs

We are happy to work with you to create individual feeding recommendations for the respective species
