

Dear Madam, dear Sir,  
Dear customers,

In the current Covid-19 situation, the welfare of people and animals is a priority to us.

You will find below an update on the current status and the measures we have taken so far:

**Delivery reliability: We do our utmost to ensure your order deliveries in the coming weeks and months**

Our plant is in full operation and produces all feed without restrictions. During these challenging times, measures have been taken to ensure timely production and logistics. The supply of ingredients is ensured and we are fortunately not having shortages of raw materials. Our ingredients stocks are sufficient for several months.

The care of your animals is thus guaranteed as usual. We would like to sincerely thank you for your continuous trust in our products and company and wish you all the best in this challenging period. If you have any questions, please contact our customer relation service:
