

PRIMATES

Acacia gum natural

Feed number: 2991

Suitable for: Gummivore and exsudativore Monkeys

YOUR BENEFITS

- ◇ A natural, dried gum exudate from the branches and stems of acacia
- ◇ Natural product in rough chunks
- ◇ Contains natural complex carbohydrates which can be fermented by the intestinal flora
- ◇ Suitable for species consuming plant exudates in the wild
- ◇ Ideal as natural enrichment
- ◇ Without further additives (without vitamin C, therefore also suitable for animals with a tendency to iron storage disease).
- ◇ Can contain secondary plant metabolites

We are happy to work with you to create an individual feeding recommendation

TYPE OF FEED, FORM, DELIVERY QUANTITY

- ◇ Supplementary feed
- ◇ Form: Chunks
- ◇ Delivery quantity: 1kg box
- ◇ Product number: 2991.OM.BU1

PRIMATES

Acacia gum natural

Feed number: 2991

FEED SPECIFICATIONS

Major nutrients (%)

Dry matter	90
Crude protein	0.8
Crude fat	<1
Crude fiber	0.9
Crude ash	3
NFE	84

Macrominerals (%)

Calcium	0.9
Phosphor	<0.1
Magnesium	0.15
Potassium	0.2
Sodium	<0.1

Ingredients

100% acacia gum

Engery (MJ/kg)

GE:	15.3
ME:	14.4

Remarks

- ◇ Acacia gum is a natural product without the addition of minerals, trace elements and vitamins.
- ◇ Given values are calculated averages in air-dry feed.
- ◇ Energy values calculated according to Kamphues et al. 2014.
- ◇ GE=gross energy, ME=metabolisable energy.
- ◇ ME calculated according to Atwater factors
- ◇ Nutrients are subject to natural variation of the raw materials and their production process.
- ◇ This is a natural product that may contain impurities of bark or other natural substances

OUR FEED RECOMMENDATION

- ◇ It should supplement the daily feed intake in small amounts.
- ◇ The chunks can be fed in their original form or can be soaked over night to obtain a pulp (30 g of acacia gum with 20 ml of water)
- ◇ This acacia gum stirred into a pulp can be attached to branches, knots or recesses in order to promote the behavior of natural feed intake.
- ◇ Acacia gum pulp should daily be freshly prepared.
- ◇ Don't feed acacia gum at the same time as the pellets

We are happy to work with you to create individual feeding recommendations for the respective species
