

## PRIMATES

# Acacia gum

Feed number: 2990

Suitable for: Gummivore and exsudativore primates

## YOUR BENEFITS

- ◇ A natural, dried gum exudate from the branches and stems of acacia
- ◇ Refined for highest hygienic standards
- ◇ Contains natural complex carbohydrates which can be fermented by the intestinal flora
- ◇ Suitable for species consuming plant exudates in the wild
- ◇ Without further additives (without vitamin C, therefore also suitable for animals with a tendency to iron storage disease).

**We are happy to work with you to create an individual feeding recommendation**

## TYPE OF FEED, FORM, DELIVERY QUANTITY

- ◇ supplementary feed
- ◇ Form: Powder
- ◇ Delivery quantity: 1kg box
- ◇ Product number: 2990.YY.BU1
- ◇ Storage: dry (<75% humidity), dark (no direct sunlight) and cool (10-25°C) or ideally in the fridge (2-8°C).

# Acacia gum

Feed number: 2990

## FEED SPECIFICATIONS

### Major nutrients (%)

Dry matter	90
Crude protein	0.8
Crude fat	<1
Crude fiber	0.9
Crude ash	3
NFE	84

### Macrominerals (%)

Calcium	0.9
Phosphor	< 0.1
Magnesium	0.15
Potassium	0.2
Sodium	<0.1

### Energy (MJ/kg)

GE:	15.3
ME:	14.4

### Trace elements (mg/kg)

Iron	115
Zinc	< 1
Copper	2.24
Manganese	2.3
Selenium	< 0.1

### Ingredients

100% acacia gum

### Remarks

- ◇ Acacia gum is a natural product without the addition of minerals, trace elements and vitamins.
- ◇ Given values are calculated averages in air-dry feed.
- ◇ Energy values calculated according to Kamphues et al. 2014.
- ◇ GE=gross energy, ME=metabolisable energy.
- ◇ ME calculated according to Atwater factors.
- ◇ Nutrients are subject to natural variation of the raw materials and their production process.

## OUR FEED RECOMMENDATION

- ◇ It should supplement the daily feed intake in small amounts.
- ◇ The powder can be mixed with warm water in a ration of 50 g powder to 30 ml of water.
- ◇ This acacia gum stirred into a pulp can be attached to branches, knots or recesses in order to promote the behavior of natural feed intake.
- ◇ Acacia gum should daily be freshly prepared.

**It is recommended to use the pellet in an enriched feeding management that maximizes the animals' feeding time**
